

ATE-660 & ATE-860

Slim and smart design

 **TOPCON** Healthcare

ATE-660 and ATE-860

The Topcon ATE-660 and ATE-860 represent the next generation of ophthalmic instrument tables. Redesigned from the ground up, they focus on quality, durability, and convenience. Engineered for versatility, they seamlessly accommodate slit lamps, refractometers, OCTs, tonometers, and more – ensuring ergonomic use for every examination.

CABLE MANAGEMENT

Both tables feature integrated power and network connections, built directly into the base for a clean, streamlined design. This smart integration ensures convenient, effortless use while keeping your workspace organised and efficient.

MOBILITY

The ATE-660 and ATE-860 tables come standard with smooth-rolling 55 mm castors. For enhanced mobility, they can be upgraded with optional 75 mm castors.

	ATE-660	ATE-860
MAXIMUM LOAD TABLETOP	-	60 KG
MAXIMUM LOAD PC HOLDER	-	10 KG
MAXIMUM LOAD TABLETOP 1 INSTRUMENT	30 KG	-
MAXIMUM LOAD TABLETOP 2 INSTRUMENTS	60 KG	-

MINIMUM TABLE HEIGHT, CASTOR TYPE	670mm	670mm
MINIMUM TABLE HEIGHT WHEELCHAIR BASE	640mm	640mm
NET WEIGHT	30 KG	50 KG
GROSS WEIGHT	50 KG	80 KG
POWER SUPPLY	110-240V	110-240V
ELECTRICAL CLASSIFICATION	Class I, Type B	Class I, Type B

ATE-660

The table that adapts to your practice

The ATE-660 is the latest addition to Topcon's ophthalmic instrument table collection – completely redesigned to deliver quality, durability, and convenience. The elevation column can be positioned either centrally or to the side, allowing you to adapt the table to your workspace needs.

With three tabletop options and flexible column positioning, the ATE-660 is designed to integrate seamlessly into any clinical setting. The side column position is specifically intended for a single-top setup.

PC Support for ATE-660

Optional PC support is available for the ATE-660 (dual tabletop version), with a slightly different design from the ATE-860. It comes in a basic, doorless configuration.

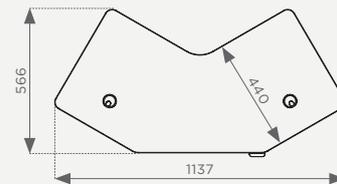

1 ATE-660 Tabletop single suitable for 1 instrument 630 x 420 [mm]

2 ATE-660 Tabletop dual suitable for 2 instruments 840 x 420 [mm]

3 ATE-660 Tabletop V-shaped suitable for 2 instruments 1136 x 566 [mm]

ATE-860

Compact and Organised Workstation

Whether you use a digital slit lamp with camera, an OCT, or a non-mydriatic fundus camera, the ATE-860 workstation provides a clean and compact working environment. Its smart cable management system keeps monitors, PCs, and cables neatly organised for a clutter-free setup.

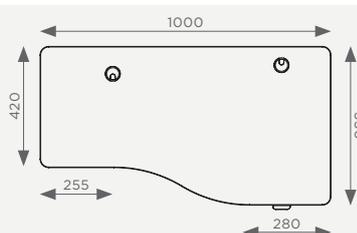

A subtly illuminated control button, optimised for low-light environments, enables effortless height adjustment of up to 300 mm.

Safety stopper.

The ATE-860 offers an optional safety stopper that prevents downward movement if the table comes into contact with the patient's legs.

Integrated PC Support

The PC support is optional, allowing desktop PCs and cabling to remain completely out of sight, seamlessly incorporated into the slim design of the ATE-860.

ATE-860 tabletop

The ATE-860 tabletop offers ample space for the operator to work comfortably and efficiently. Its well-proportioned surface is designed to accommodate a slit lamp, OCT, or any other diagnostic device along with a PC, ensuring a seamless and organised workspace.

IMPORTANT Subject to change in design and/or specifications without advanced notice.
In order to obtain the best results with this instrument, please be sure to review all user instructions prior to operation.
