

IC-1 series

Instrument Column

Space-saving with flexible design

IC-1

Wall Mounted Instrument Column

The IC-1 instrument column is a wall-mounted instrument table that delivers an exceptionally small footprint, saving valuable floorspace, allowing easy wheelchair access, and facilitating easy floor cleaning.

The IC-1 can be set up for up to two instruments, and with the additional option of a monitor and keyboard support, can be turned into a complete flexible workstation. The vertical elevation of the tabletop allows for seated or standing operation of your instruments.

Overview

- Modern design
- Tabletop available for one & two instruments
- Space saving
- Simple & easy operation of the tabletop
- Easy wheelchair accessibility
- Vertical elevation of tabletop by 600mm
- Standing & sitting position usability
- Flexible workstation monitor & keyboard support

Monitor & Keyboard Support

Easily position your monitor at adjustable heights on either side of the column for optimal viewing comfort. The keyboard tray rotates smoothly and tucks neatly beneath the tabletop when not in use, maximising workspace efficiency.

Small Footprint

The IC-1 saves valuable floor space with its exceptionally small footprint. Even with two instruments installed, it occupies no more than 0.5m² (780mm x 650mm), ensuring efficiency in any practice or shop.

Adjustable tabletop

The tabletop can be elevated by up to 600mm, providing flexibility for operators to conduct testing while seated or standing. With a minimum height of 720mm, it also supports comfortable examination of children. The up/down controls can be installed on any side, offering full customisation to suit your clinical space.

Flexible positioning

The IC-1 gives operators the flexibility to operate instruments from three sides. This delivers the option of installing a joystick operated instrument in a 'classic' setting with the patient and operator on opposite sides.

IC-1E

Wall Mounted Instrument Column

Part of the successful IC-1 series, the IC-1E instrument column offers the added advantage of using the entire tabletop as a work area. It is available with a tabletop for one instrument or a larger version that accommodates two instruments.

The IC-1E combines compact dimensions with a minimal footprint, making it ideal for efficient clinical spaces. Like the IC-1, it features a generous 600mm height adjustment, providing flexibility for both seated and standing operation.

Designed with Topcon's joystick-free touchscreen instruments in mind, the IC-1E delivers a versatile, ergonomic, and space-saving solution for the modern clinic.

Overview

- Innovative unique design
- Space saving
- Easy wheelchair accessibility
- Large tabletop elevation stroke of 600mm
- Standing and sitting position usability
- Tabletop available for one or two instruments

IC-1S

Standalone

The IC-1S is a standalone configuration of the IC-1E, designed for environments where wall mounting is not possible. It can be positioned against a wall without the need for drilling, offering greater flexibility during installation.

Featuring a large tabletop designed to accommodate two instruments, the IC-1S provides an expanded and practical work surface. Despite its increased capacity, it maintains a compact footprint and offers full wheelchair accessibility, delivering a versatile, efficient and ergonomically designed solution for modern clinical environments.

Overview

- Standalone table for wall-side placement
- Supports two instruments
- Wheelchair-friendly foot design
- Elevation stroke of 300mm

Colour Configurations

IC-1

The IC-1 is available in available in different colour options which can be configured according to preferences.

Column & Tabletop

White RAL 9001

Side covers

Dark grey RAL 7016

Dark grey RAL 7016

IC-1E and IC-1S

The IC-1E is available in one tabletop colour

Column & Tabletop

White RAL 9001

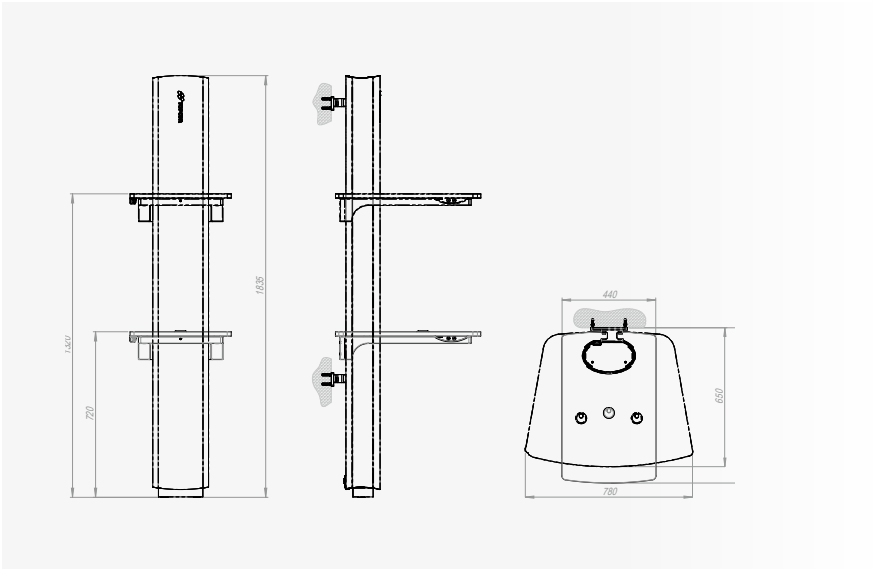

Wheelchair Access

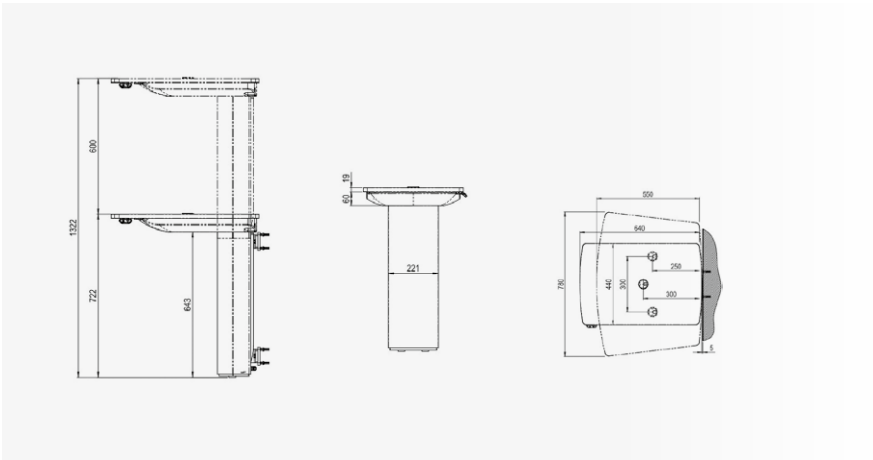

With no traditional table footprint, the IC-1 frees up floor space, making it easier to manoeuvre and position patients in wheelchairs comfortably and safely.
